Xstamper® industrial inks are formulated to perform under the harshest conditions encountered in today's varied manufacturing world. For more information on all the places you can use our specially formulated industrial inks, please see your Xstamper sales rep. Due to the sensitive nature of alcohol-based inks in today's harsh industrial settings, Industrial Stamps are not covered by warranty. Please allow re-inked stamps to sit overnight for maximum saturation before use.

We strongly recommend using only Xstamper® Refill Ink to re-ink your Xstamper pre-inked rubber stamp. It has been specifically formulated to flow cleanly through the micropores of the Xstamper's laser-engraved rubber. Using ink other than Xstamper Refill Ink can clog these micropores and void the Xstamper warranty. Please follow the directions below for your respective Xstamper mount. After re-inking, please allow stamp to sit up to 24 hours to reach maximum saturation.
